Hours of Work

Work Day
The Agency delivers service to its clients 24 hours a day, 7 days a week and 365 days per year, including Statutory Holidays. Scheduled hours of service for clients are determined on a case-by-case basis, depending on the needs and wishes of the individual client. Should employees request a change in their established schedules, the requests must be referred to the Supervisor.

Weekend Work Hours
The Agency provides services 24 hours a day, 7 days a week and 365 days a year. Therefore, employees will be required to work weekends, when needed. Weekend assignments are issued on a rotational basis and employees are expected to take their turn. Anyone who refuses a weekend assignment will be required to make it up the next weekend. Repeated refusal of weekend assignments may result in termination of employment since availability for shift and weekend work is one of the conditions of employment with the Agency.

Shift Work Hours
Shifts can vary from 2 hours to 24 hours, depending on the services provided. A Supervisor is available to support you at all times. During office hours, phone the Agency Office if you wish to contact either the Supervisor.

During non-office hours, a Supervisor is also on-call, for urgent and emergency calls. The Agency has a dedicated cell phone for this support. If on-call personnel are rotated, calls will be forwarded to the person who is currently on-call. To get supervisory support during non-office hours:

♦ Contact the Supervisor on call, by phoning: 618-667-8400

Work Assignments

Work Assignments in Clients' Homes
Work assignments for Caregivers are scheduled by the Office Manager. They are offered on the basis of services required, qualifications/expertise needed and availability of employee(s).
If a client receives large hours of service per week, he/she might have more than one worker assigned. This means that a client is a client of the Agency and not a client of any one particular employee.

When you receive and accept an assignment, you agree to the hours that the job requires. Should the requirements of that particular job change, you will be given first option of keeping that assignment, if you are willing to work within the changes. On the other hand, if you are not able to work within the new changes, another employee will be assigned.

You may refuse an assignment but doing so does not mean a replacement assignment will become available; or, if one does, it doesn't mean that the replacement assignment will be given to you. There is no guarantee of work assignments, as requests for service are unpredictable and can be sporadic.

Sometimes assignments come up on very short-notice. Being willing to accept these last-minute assignments and/or being available to cover for sick employees, will increase your chances of receiving assignments.

**Employee Work Assignment Responsibilities**

Keep your contact information current with the Agency office. We must be able to reach you easily and often on short notice. We will not be responsible for any loss of hours or other inconveniences or hardships you incur because we were not able to contact you. When you receive your work schedules for the current time period, you are responsible for immediately reviewing the schedule and notifying the office of any problems or conflicts.

**Viewing Past & Future Schedules:**

Once you receive your schedule, you are responsible to be at your assigned and accepted shifts. To review your schedule at any time, you may go to www.MorningGloryHomecare.com/caregiver-portal. Set up an account, and then login any time to see past or future schedules. This should also help you clarify scheduling questions when you forget what you worked, etc.

Be on time for your assignments. Not only is this being courteous to the client but also to another employee who may be working the shift previous to yours and may need to get to his/her next one. Unless an emergency situation arises, and you are not able to make your assignment, you should advise the office well in advance of any schedule changes you require, i.e., If you know you have an appointment, give the office at least one week’s notice.

If you do need to change your schedule for any reason, do not work it out with the client(s). You must notify the office and let the office revise the schedule, as it sees fit. Neither are you to ever swap assignments or shifts with other workers. Instead, notify the office and the office will determine if the swap will be permitted. Only the office is aware of the “whole picture” and other factors that could influence the swap.

**When Unable to Make Work Assignment**
When you are not able to work because of short-term illness or other reasons, you must contact your Supervisor, as soon as you are aware that you cannot report for duty, in order that a substitute can be arranged, if necessary. As a minimum, you are required to give at least 3 hours’ notice. If you become aware, during non-office hours, that you cannot cover your assignment(s), you must contact the Supervisor on call. If you do not contact a Supervisor and fail to report for your assignment, you will be considered a "no-show" and will be subject to termination.

You must call a Supervisor directly. During non-office hours, you can phone the on-call Supervisor. Do not leave telephone messages, as it may be imperative that arrangements be made immediately for a substitute for you. If you get the On-Call Individual's voice mail, don't leave a message but continue to call back, until you reach him/her. The Supervisor may already be on the phone or could temporarily be in a position that prevents him/her from taking your call at that moment. In any event, it is your responsibility to keep phoning back until you get a live answer.

Call-offs will be recorded in your file, and will factor in to future shifts being assigned. Excused absences are non-emergency situations that the office received a 1 week’s notice for, and absences due to true illness that the office is notified at least 3 hours ahead, and a doctor’s note is provided if the absence is longer than 3 days. If less than a 3-hour notice, a doctor’s note is required for the absence to be excused. If a doctor’s note is required, the statement should also indicate when you can be expected to resume your duties. You are not paid for hours that you do not work unless you are eligible for approved and documented leave benefits.

Absences/policy violations: The office documents all absences, policy violations, misconduct, etc. This is a reminder that three violations of any kind in a six-month period is grounds for termination. Example: 3 late arrivals in a six-month period; or 1 late arrival, 1 uniform violation, 1 unexcused absence. See the handbook for more detailed information. Certain policy violations are grounds for immediate termination without prior violation.

Excused/unexcused absences: This is a reminder that some absences are excused and some are unexcused. We expect employees to be at work on all accepted shifts. Any changes once shifts are accepted may be considered unexcused. See the handbook for more on excused and unexcused absences, but below are a few common examples.

Excused absences examples are:
- Shifts that are requested off at least seven days ahead and receive office approval are excused. While requests off are not guaranteed, we do our best to accommodate these requests with sufficient notice. We will work with you to accommodate requests off so that you can be at necessary appointments, child events, or anything else that life brings your way, but we need sufficient notice so that our clients can continue to receive excellent care. Please call the office a minimum of seven days ahead if you need off work and it is of a non-emergency nature. Again, we cannot guarantee this request, but the sooner we know, the more likely it is we can accommodate schedule changes. Keep in mind that if you have a set schedule, please make appointments outside of work hours.
• Sick call-offs with at least a three-hour notice, that do not exceed two per month or 6 per year, will be excused. If you cannot give a three-hour notice or exceed 2 sick call offs in a month, or 6 in a year, documentation will be required for this to be excused.

Schedule Changes
If a client sends you home early from an assignment, you must notify the office before leaving the client's home. If a client requests any other type of schedule change (i.e. staying late, coming early, coming a different day, etc.), the client or client representative must contact the office before the change is made.

Failure to properly contact the office about schedule changes may result in disciplinary action up to and including suspension and/or dismissal.

Services Provided
Service is delivered and coordinated with other community services and monitored, so we know that the client's needs are met. A care plan is kept in your client's home (and a copy at the office) so that you know what you are meant to do. You may not undertake any tasks that are not listed on the care plan.

Client Activity Log
Per State Standards, all information that should be documented in the Client Activity Log:
• Visit times (start and end)
• Information regarding activities that were performed (e.g. cleaning, cooking, running errands, playing cards, etc.)
• Information regarding personal care provided (e.g. hands-on assistance for: mobility, showering, dressing, grooming, continence care, toileting, etc.)
• Information regarding medications that were taken by client (including times)
• Information relevant to the care of the client
• Any money withdrawn by a client on an outing

Notes should be taken at a minimum of every 2 hours, whether or not any status with the client has changed.

Often times family members, doctors, as well as the office staff will review a client's activity log for various reasons, including health concerns, emotional stability, and to ensure that we are meeting the needs of the client. The Client Activity Log will also be used by other Caregivers to review work that was performed during previous visits and to determine routines.
Do not correct from other Caregivers, throw away documentation, or express personal opinions. All documentation should be factual and be done objectively.

• Hair Care. As a part of the broader set of services provided to clients who are receiving home services, home services workers may assist clients with the maintenance and appearance of their hair. In all cases, the insertion and removal of catheters and care of external catheters is considered skilled care and shall not be performed by a home services worker.

   ii) A home services worker may empty ostomy bags and provide assistance with other client-directed ostomy care only when there is no need for skilled skin care or for observation or reporting to a nurse. A
home services worker shall not perform digital stimulation, insert suppositories, or give an enema.

- Transfers. A home services worker may assist with transfers only when the client has sufficient balance and strength to reliably stand and pivot and assist with the transfer to some extent. Adaptive and safety equipment may be used in transfers, provided that the client is fully trained in the use of the equipment and can direct the transfer step by step. Adaptive equipment may include, but is not limited to, wheelchairs, tub seats, and grab bars. Medication minder containers shall be clearly marked as to day and time of dosage. Medication reminding includes: inquiries as to whether medications were taken; verbal prompting to take medications; handing the appropriately marked medication minder container to the client; and opening the appropriately marked medication minder container for the client if the client is physically unable to open the container. These limitations apply to all prescription and all over-the-counter medications. The home services worker shall immediately report to the supervisor, or, in the case of a placement worker, to the client or the client’s advocate or designee, any irregularities noted in the pre-selected medications, such as medications taken too often or not often enough, or not at the correct time as identified in the written instructions.

If you cease working at the Morning Glory Homecare, Inc. for a period of 366 days or more, and are re-hired, you lose your seniority. However, if you are re-hired within 365 days of termination, your seniority will remain intact. A number of factors are examined to determine the best qualifications and capabilities for promotions including experience, past performance, job-related, educational background, ability, qualifications, attendance record and, seniority.
